Please make your third quarter (July 1) dues payment of \$390 to:
Wooden Canoe
HOA
c/o Reed
Property
Management
P.O. Box 3191
Dillon CO 80435

Frisco Dark Sky Initiative

We would like to take this opportunity to remind all Wooden Canoe residents of the dark sky initiative for the Town of Frisco. Many have their outside lights on all night and many are very bright and shine directly into neighbors homes. There are ways to save money and still be safe. Lights with motion sensors can provide an alert if someone is in your yard after dark and they save you money by keeping the lights off when they aren't needed. Timers are another money saver because they can turn off your lights when you will not be using the yard; for instance, when you retire for the night. We could work together to shield the lights so that they are even more effective. Shielding a lamp usually requires a lesser wattage bulb, which is a big money saver within just a year's time. Shielding reduces glare which can be blinding and produces fewer harsh shadows. Dark sky friendly lighting provides real security, not just an illusion. Please respect the values of the mountains and why people enjoy the stars.
